

## Bayou Biolabs Plasmid Submission Form

Please fill out this form when sending plasmids. You can send either your plasmid DNA in TE buffer, or you can send the plasmid in an E. coli host as a glycerol stock. If you send plasmid DNA, send about 1 to 5 ug plasmid. Place the microcentrifuge tube containing the plasmid inside a 50 ml centrifuge tube, in order to prevent the microcentrifuge tube from being crushed. Ship the plasmid at ambient temperature, ice is not necessary. If you ship an E. coli glycerol stock, ship on dry ice. Please include the completed form with the plasmid shipment.

Plasmid #1

Plasmid Name: \_\_\_\_\_

Approximate Size (kilobases): \_\_\_\_\_

Antibiotic Resistance: \_\_\_\_\_

Scale of Preparation (8, 16, 32 liters, other): \_\_\_\_\_

Supercoiled Purified (yes/no): \_\_\_\_\_

Endotoxin Removed (yes/no): \_\_\_\_\_

Phone contact with estimate of yield prior to fermentation (yes/no): \_\_\_\_\_

Plasmid #2

Plasmid Name: \_\_\_\_\_

Approximate Size (kilobases): \_\_\_\_\_

Antibiotic Resistance: \_\_\_\_\_

Scale of Preparation (8, 16, 32 liters, other): \_\_\_\_\_

Supercoiled Purified (yes/no): \_\_\_\_\_

Endotoxin Removed (yes/no): \_\_\_\_\_

Phone contact with estimate of yield prior to fermentation (yes/no): \_\_\_\_\_
